Resolution in Support of Transvestites and Crossdressers (RES003)

TENI supports the human rights of transvestites (TV) and crossdressers (CD). TENI embraces TVs, CDs and related identities as an integral part of the transgender community.

The trans community is diverse and TENI honours and celebrates the full range of identities and experiences. TENI's commitment to TVs and CDs does not differ from our commitment to other members of the trans community.

Position of TENI

TENI takes the position that as an organisation we will:

- Raise awareness of the needs of TVs/CDs by supporting individuals or the community to share their stories.
- Consult with TVs/CDs on their experiences and needs and work to promote these voices in relevant activities, research, policy and legislation.
- Advocate for legal protection on the basis of 'gender expression' in relevant legislation.

Resolution passed by the TENI Board
